Gladepoint Strategies LLC

Vanessa Lewis Chief Financial Officer Brewer, Manning and Davis

Dear Ms. Lewis:

Thank you for the confidence you and your colleagues have shown in our firm over these past weeks of discussion. This letter confirms the terms on which Gladepoint Strategies LLC will advise Brewer, Manning and Davis on the design of a new pricing architecture, and once countersigned it will serve as our agreement.

Our work will address the structure of your pricing rather than individual price points: how your offerings are packaged, how value is metered, where discounting authority sits, and how your commercial organization is equipped to hold the line once the new architecture is in market. We will begin with interviews across your sales and finance teams and a review of transaction-level data, test a small number of candidate structures with your leadership, and close with a recommended architecture and a practical plan for migrating your existing book of business. We expect the engagement to run approximately four months, with short written status updates throughout and a steering discussion by video call at each major decision point.

Caroline Mayo, Principal, will lead the engagement and will be your point of contact on all matters of substance. Jeff Pope, Engagement Manager, will run the day-to-day work, including scheduling, data requests, status reporting, and coordination between your team and ours. I will remain close to the work throughout and will read every deliverable before it reaches you.

Our fee for this engagement is a fixed amount of \$95,000, inclusive of ordinary expenses and invoiced in equal monthly installments. We propose to begin work on August 22, 2023, subject to your countersignature below.

We do not take work of this kind lightly. Pricing sits close to everything a company believes about itself, and engagements like this one go well when both sides are candid from the first week. You have my word that we will be. If the terms above

match your understanding, please sign and return a copy of this letter, and we will get started.

David Jones
