Melissa Sexton, VP Finance, Johnson PLC

Re: Pricing Study Engagement

Dear Ms. Sexton:

This letter confirms that Johnson PLC has engaged Pinebrook Advisory Group LLC to conduct a pricing study across your commercial product lines. You asked us two questions: where is price leaking relative to your list, and which customer segments will bear a structured increase. The study answers both with your own transaction data.

Scope of work:

- Transaction-level price waterfall from list price to pocket price, by product family and customer segment.
- Discounting practice review, including approval thresholds and exception patterns.
- Recommended price architecture and an implementation sequence your sales leadership can defend.

Jenna Wiley, Principal Consultant, leads the work; Lisa Hernandez, Analyst, runs the data analysis. Given present circumstances we are prepared to conduct interviews and working sessions by video where your team prefers it, with no change to scope or timeline.

Work will begin on March 28, 2020. The professional fee for the scope above is a fixed fee of \$119,000, invoiced monthly against progress and inclusive of routine expenses. Any change in scope will be agreed in writing before additional work begins.

We are glad to be working with your team. Please sign below to confirm these arrangements and return one copy to my attention.

Sincerely,

Chad Miller

Managing Partner
