Attention: Dana Gray, General Manager, Parrish-Gibbs

Re: Engagement for Access Easement Review

Dear Dana Gray:

This letter confirms that Parrish-Gibbs ("Parrish-Gibbs") has engaged Quillbrook Appraisal Partners LLP to review the access easements affecting the parcels identified in our correspondence with your office. The purpose of the review is to establish what rights of access exist of record, whether the conditions on the ground conform to them, and what effect any deficiency has on value. Our conclusions will be limited to what the record and the properties themselves support.

The work will proceed in the order we always follow. We will first assemble and read the recorded instruments. We will then walk each affected parcel and compare what is granted on paper with what exists on the ground. Where market evidence is required, every comparable will be verified before it is used. Nothing will appear in our report that cannot be traced to a document or an inspection.

Joseph Fisher, Senior Appraiser, will lead the engagement and direct the field program. David Ellison, Staff Appraiser, will conduct the parcel inspections and maintain the inspection record. Marcus Burnett, Research Analyst, will handle the records work and the verification of transaction data. I will review the file at each stage and will sign the report.

In accordance with our practice, the commercial terms of this engagement, including our fee and the date on which the work will commence, are set out on the signature page of this letter and are executed there rather than recited in the body. Please review them before countersigning.

If the terms are acceptable, please countersign where indicated and return one executed copy to this office. We appreciate the confidence Parrish-Gibbs has placed in the firm and will conduct the review with the care your reliance on it requires.
